## RESORT OVERVIEW

Launching in early 2014, the stylishly re-envisioned Eau Palm Beach Resort & Spa is bringing new life to the Palm Beach experience. Offering a new style of effortless living on seven chic acres of oceanfront, lush tropical gardens and a whimsical twist on luxury inspired by its namesake Eau Spa, Eau Palm Beach Resort & Spa offers an experience that is at once exciting and sensual, refined and elegant and thoughtfully appointed for leisure guests, families and business travelers alike.

Located in the heart of Palm Beach Island, Eau Palm Beach Resort & Spa's guestrooms, suites and public spaces have unparalleled views of sand, gardens and sea. The resort offers convenient access to both the charming small town ambience of Delray Beach as well as the glamour of Palm Beach's Worth Avenue boutiques. Cultural venues, shopping and recreational activities abound.

## HOTEL ACCOMMODATIONS

Featuring 309 guestrooms and suites in three towers, Eau Palm Beach Resort offers private rooms in an elegant yet relaxed setting. Spacious guest rooms include ocean, pool and garden views and private balconies. Suites have a separate bedroom, living room, and two bathrooms.

When making hotel reservations in our room block, please call **1-855-388-0537** and refer to the Florida Society of Oral and Maxillofacial Surgeons Summer Meeting to receive the group rate. The rate for single or double occupancy is **\$199 per night**. The room block will be released Friday, **June 15, 2016**.

To book your room online, go to the web site <http://bit.ly/22RbwLL>

- 12:30 pm Seminar ends

# About Our Program and Speakers

## **Advanced Airway Emergency Management of the Sedated Patient**

There is obvious increased risk when providing sedation and general anesthesia in the dental office setting. A cautious and careful pre and post op assessment, in conjunction with continuous comprehensive intraoperative monitoring can thwart off many unwarranted complications. The Advanced Airway Emergency Management of the Sedated Patient Course will prepare and provide the OMS to successfully intervene and manage these adverse situations should they potentially occur.

## **Rick Ritt, BS, MA, EMT-PARAMEDIC Dental Simulation Specialist**

As a paramedic for over 35 years, Rick has a vast foundation of acute critical care experience. Simultaneously, Rick has an extensive training history, for 20 years he directed the second largest American Heart Association CTC in the country. He is personally responsible for training over 150,000 students in BLS, ACLS, and PALS. His AHA Instructor history includes Affiliate Faculty Status in BLS, ACLS, PALS. In 2014, he established Dental Simulation Specialists Inc. to serve the growing need to

increase awareness, patient safety and outcomes in the dental office.

## **Advanced Cardiac Life Support**

Successful completion will “certify” the doctors to meet the mandatory requirements for those performing conscious sedation. This is the latest American Heart Association’s guidelines for recognizing and managing cardiovascular emergencies including acute coronary syndrome, stroke and respiratory or cardiac arrest. For the 5 hour update course the text, prep packet and pre-test are mandatory before the course (please note on your registration if you will need a textbook). BLS CPR Skills are being offered following the ACLS course for those that want to recertification for both.

## **Shaun Fix, Emergency Medical Consultants**

Mr. Fix has been practicing and teaching in the hospital and pre hospital field since 1983. He holds a degree in Emergency Medical Service Management and is faculty at several colleges. Shaun is the president of Emergency Medical Consultants, Inc., and a company officer in charge of EMS for Boca Raton Fire Rescue Services in the Palm Beach area of South Florida. Shaun has presented programs at state, national and international conferences and has appeared on FETN, Pulse,

24-7 EMS, Mediac Monthly, and Emergency Medical Update videos. A frequent lecturer, author and consultant, Shaun is best known for keeping his programs upbeat and relevant while bringing “the reality of the streets” to the classroom setting. Shaun is the author of the *Brady* text, *Success in ACLS* and recently completed writing the book *Safety and Survival in EMS* for Jones and Bartlett.

## **Evidenced Based Investing and Modern Portfolio Theory**

There is a war for your mind when it comes to investing. Wall Street bullies are lurking at every turn, causing many to speculate and gamble with their portfolios and lose faith in the American Dream. The current state of most investors is fear and concern having experienced “The Dead Decade” and in turn have made massive investing mistakes. During this presentation, you should discover many outside factors that can influence investing decisions, some of the largest obstacles when it comes to investing success, as well as the 20 Must Answer Questions you should know for your journey toward investing peace of mind.

## **Joe Matson, Principal, Matson Money**

Mr. Matson is president of the Physician’s Financial Alliance and founder of the Matson Financial Group. He received the prestigious professional designations Chartered Life underwriter and Chartered Financial Consultant from American College, the nation’s oldest institution devoted exclusively to the academic study of financial services. During his 40-year career in the financial services industry, Joe has taught the principles of financial planning to thousands of adults through the University of Cincinnati. Certified in Advanced

Estate Planning and specializing in the needs of medical professionals for nearly 30 years, Joe is dedicated to helping physicians lower tax burdens, increase retirement income, and protect their assets.

## **Arthur B. Laffer, PhD, Matson Money**

Member of President Reagan’s Economic Policy Advisory Board (both terms), 1981-1989; Founder and Chairman of Laffer Associates; Bachelors of Economics, Yale University; MBA, Ph.D., Economics, Stanford University

Dr. Laffer’s economic acumen brings a distinct advantage to Matson Money, our coaches, and clients with insights on the implication of economic policy on savers and investors. Frequently referred to as “The Father of Supply-Side Economics”, Dr. Laffer helps navigate the complexities of

the economy, interest rates, and tax efficiency as it applies to portfolio construction.

## **State of the Art Science in Dental Implants and Alveolar Ridge Augmentation**

Many advances have occurred over the last several years in implant surgery and alveolar ridge augmentation. This course will update the practicing clinician on the recent advances in the field of implant dentistry. Areas of discussion will include treatment planning, site development, materials and techniques for alveolar ridge augmentation, peri-implant maintenance, and new technologies.

**Sponsored by:** 

## **Tara Aghaloo, DDS, MD, PhD**

Dr. Aghaloo is professor in Oral and Maxillofacial Surgery at the UCLA School of Dentistry. She completed her dental training at the University of Missouri in Kansas City, and Oral and Maxillofacial Surgery residency and MD at UCLA. Subsequently, she completed a PhD in oral biology at UCLA. She is a diplomate of the American Board of Oral and Maxillofacial Surgery. Her clinical practice focuses on bone and soft tissue regeneration and dental implants. Her research complements her clinical focus in bone biology and regeneration strategies

at the basic and translational levels. She is active in professional organizations including the AAOMS CRPTA committee member and past president of the OMS Section of the IADR. Currently, she is the section editor for *The International Journal of Oral and Maxillofacial Implants*, and a board member of the Academy of Osseointegration.
