Florida Society of Oral and Maxillofacial Surgeons

2017 Summer Meeting

Thursday, July 27:
ACLS/BLS Recertification
Shawn Fix, Emergency Medical Consultants, Inc.

Friday, July 28:
- Advanced Emergency Management of the Sedated Patient
- OMS Office Emergencies - Simulation Course
Rick Ritt, Dental Simulation Specialists

Saturday, July 29:
Peripheral Trigeminal Nerve Injuries:
Contemporary Evaluation, Regeneration, and Repair

Oral and Maxillofacial Surgery Surgical And Anesthesia Training: Current Perspectives
Martin B. Steed, DDS, Associate Professor and Chair
Department of Oral and Maxillofacial Surgery
Medical University of South Carolina

Sunday, July 30:
Management of Obstructive Sleep Apnea
Salam Salman, DDS, MD
Assistant Professor, Department of Oral and Maxillofacial Surgery
University of Florida Health Science Center
Jacksonville, FL

Staged-Reconstructive Approach to Cleft Lip & Palate
Ramon Ruiz, DMD, MD
Medical Director
Arnold Palmer Hospital Pediatric Craniomaxillofacial Surgery
Craniofacial Disorders Program
RESORT OVERVIEW
A barrier island on the East Coast that provided a safe anchor for seafaring souls, Amelia Island has been discovered and rediscovered many times over – by pirates and colonists and those who love how the sea can touch their soul. The island reveals many treasures, including The Ritz-Carlton, Amelia Island, a sanctuary among luxury beach hotels that provides a welcome barrier between you and the world beyond. We honor our cherished heritage with a daily Pirate Toast. A treasure hunt for our younger guests. Culinary explorations that stay true to our coastal Florida roots. Spa treatments that soothe from a slow, Southern pace. And a golf course that naturally blends into ancient terrain. With miles of pristine beaches to explore, you’ll find yourself basking in the glow of the sun as you swim, relax or walk along the sandy shore.

HOTEL ACCOMMODATIONS
Featuring 446 guestrooms and suites all with a private balcony, four restaurants and lobby lounge, the Ritz-Carlton spa. 24-hour fitness center, on-site tennis facilities and 18 holes of private championship golf just outside our front door.

When making hotel reservations in our room block, please book your room online, go to the web site: https://aws.passkey.com/go/FLSocietyOandMSurgeons17

OR
call 1-866-763-2960 and refer to the Florida Society of Oral and Maxillofacial Surgeons Summer Meeting to receive the group rate. The rate for single or double occupancy is $299 per night. The room block will be released Friday, June 16, 2017.

CONFERENCE REGISTRATION
To register for the FSOMS Summer Meeting, please complete your registration online, including credit card payment as soon as possible. Online registration is available at: https://www.123signup.com/register?id=nkvsh

The registration includes all scientific sessions, full breakfast (Saturday & Sunday), and the Friday night reception for you and your spouse/guest.

Conference Registration Fees: Member, $450; Non member, $550; Retired Member, $350; Guests and Spouses, no charge.

Airways and Emergency Courses
1) ACLS/BCLS 2017 Update: Member, $200; Non member, $250; Staff, $150;

2) ACLS (only): Member, $150; Non member, $200; Staff, $100

Once you register for the ACLS/BCLS course a 2016 text book will be mailed to you. You must complete the online pretext in the and bring in your results in order to take the course offered.

3) Advanced Airway Complications & Management for the OMS and OMS Office Emergencies- Simulation Course (both courses): Member, $650; Non member, $750; Staff, $650

4) Advanced Airway Complications & Management for the OMS (only): Member, $400; Non member, $500; Staff, $400.

5) OMS Office Emergencies - Simulation Course (only): Member, $400; Non member, $500; Staff, $400

Licensing Airways CE Requirements:
64B5-14.004 Additional Requirements.
(6) All dentists who hold an active sedation permit of any level must complete four (4) hours of continuing education in airway management and four (4) hours of continuing education in medical emergencies, every four (4) years from the last date the dentist took the continuing education course. The four (4) hours in airway management must include two hours didactic training in providing dentistry on sedated patients with compromised airways and two hours must include hands-on training in airway management of sedated patients. The continuing education must be taken through a board approved continuing education provider. The continuing education required by this subsection will take effect on March 1, 2014. The continuing education required by this subsection may be included in the thirty (30) hours required by Section 466.0135, F.S.

AIRPORTS
Jacksonville International Airport is located 30 minutes from the resort and serviced by all major airlines.

GROUND TRANSPORTATION and PARKING
Please contact the concierge desk at 904-321-5019 to inquire about transportation services and fees. Valet parking required, $24 plus tax, per night.

CONTINUING EDUCATION
This conference has been approved for 4 hours for the Airways course provided by Dental Simulation Specialists and 4.5 hours ACLS and 1 hour for BCLS course, which will be provided by Emergency Medical Consultants, Inc. FSOMS will provide a certificate showing 7.5 hours for our Scientific Program.

CONFERENCE ATTIRE
Resort casual is acceptable throughout the weekend.
### Thursday, July 27
- **12:30 – 1:00pm** ACLS/BLS Registration
- **1:00pm – 5:30pm** ACLS Recertification Course
- **5:30pm – 6:30pm** BLS Recertification Course

### Friday, July 28
- **7:00am – 8:00am** Breakfast & Registration for Airways Courses
- **8:00am – 10:00am** Advanced Airway Complications & Management for the OMS
- **10:00am – 10:15m** Break with Exhibitors
- **10:15am – 12:15pm** Airway Complications & Management for the OMS Continues
- **12:15pm – 1:00pm** Lunch for Participants in Airways courses only
- **1:00pm – 3:00pm** OMS Office Emergencies - Simulation Course
- **3:00pm – 3:15pm** Break with Exhibitors
- **3:15pm – 5:15pm** OMS Office Emergencies - Simulation Course Continues
- **1:00pm – 6:00pm** Conference Registration
- **6:30pm – 7:30pm** Welcome Reception

### Saturday, July 29
- **7:00am – 8:00am** Breakfast with Exhibitors & Registration
- **8:00am – 10:00am** Peripheral Trigeminal Nerve Injuries: Contemporary Evaluation, Regeneration, and Repair
  - **Martin B. Steed, DDS**
- **10:00am – 10:30am** Break with Exhibitors
- **10:30am – 12:00pm** Oral & Maxillofacial Surgery Training: Current Perspectives
  - **Martin B. Steed, DDS**
- **12:00pm – 2:30pm** FSOMS Board Meeting
- **Lunch and Dinner on Your Own**

### Sunday, July 30
- **7:00am – 8:00am** Breakfast with Exhibitors
- **8:00am – 10:00am** Management of Obstructive Sleep Apnea
  - **Salam O. Salman, DDS, MD**
- **10:00am – 10:30am** Break with Exhibitors
- **10:30am – 12:30pm** Staged-Reconstructive Approach to Cleft Lip & Palate
  - **Ramon L. Ruiz, DMD, MD**
- **10:30am – 12:30pm** Adjourn
About Our Program and Speakers

**ACLS/BCLS Update 2017**

ACLS Update For The Dental Professional- Emergency Medical Consultants takes the 2015 ACLS guidelines and makes them relevant to the OMS office. The AHA now mandates completion of a pretest, which will be sent to participants, prior to the course. This program is designed to review the latest guidelines for managing cardiac emergencies in both perfusing and cardiac arrested patients. Following the update, participants will progress through cases involving Airway compromise. Acute Coronary Syndromes, Stroke, and Cardiac Arrest: all as they may relate to the Oral Surgeon. The additional CPR Certification Skills, (Child and Infant CPR and Choking) can be added to the end of the ACLS course for those who require BLS CPR certification as well.

**ACLS Participants must have the 2016 Text (available when registering) and complete the pre-test supplied in hard copy or via email prior to entering the course.**

**Shaun Fix, Emergency Medical Consultants**

Shaun Fix has been practicing and teaching in the hospital and pre-hospital field since 1983. He is the president of Emergency Medical Consultants, Inc and a company officer in charge of EMS for Boca Raton Fire Rescue Services in the Palm Beach area of South Florida. This team has been presenting Management of Office Emergencies for Dental Professionals since the 90’s and along with Dental Specialty ACLS courses. helped present the original curriculum for the Dental Airway Course with members of the FSOMS board. Shaun has presented programs at State, National and International Conferences and has appeared on FETN. Pulse, 24-7 EMS, Medic Monthly, and Emergency Medical Update Videos. A frequent lecturer, author and consultant, Shaun and his group are best known for keeping their programs upbeat and relevant while bringing “the reality of emergency medicine” to the classroom setting and providing onsite relevant training based on the providers specific needs.

**Advanced Airway Complications & Management for the OMS**

There is obvious increased risk when providing sedation and general anesthesia in the dental office setting. A cautious and careful pre and post op assessment, in conjunction with continuous comprehensive intraoperative monitoring can thwart off many unwarranted complications. The Advanced Airway Emergency Management of the Sedated Patient Course will prepare and provide the OMS to successfully intervene and manage these adverse situations should they potentially occur.

**OMS Office Emergencies – Simulation Course**

This unique and challenging program provides the OMS with a hands on clinical simulation experience that addresses the proper assessment and management of a variety of patient emergencies associated with sedation. This course will re-enact emergency simulations as a method to improve patient safety, team performance, and outcomes. You will be presented with a variety of case studies in which you will be engaged in real time critical decisions and therapies for those patients. Lastly, participants will be given the opportunity to participate and demonstrate the appropriate patient and team management on a host of high fidelity simulators and task trainers.

**Rick Ritt, BS, MA, EMT-PARAMEDIC**

Dental Simulation Specialist

As a paramedic for over 35 years, Rick has a vast foundation of acute critical care experience. Simultaneously, Rick has an extensive training history, for 20 years he directed the second largest American Heart Association CTC in the country. He is personally responsible for training over 150,000 students in BLS, ACLS, and PALS. His AHA Instructor history includes Affiliate Faculty Status in BLS, ACLS, PALS. In 2014, he established Dental Simulation Specialists Inc. to serve the growing need to increase awareness, patient safety and outcomes in the dental office.

**Martin D. Steed, DDS**

Dr. Steed graduated from St. John Fisher College cum laude. He then attended the University of Buffalo School of Dental Medicine, graduating in 1997. After completing an Oral Medicine residency at the University of North Carolina at Chapel Hill in 1999, his training in Oral and Maxillofacial Surgery was carried out at the Emory University School of Medicine in Atlanta. Dr. Steed began his professional career at the Emory University School of Medicine in 2004, and was full time faculty there until 2013. He was the Emory Oral and Maxillofacial Surgery Residency Program Director from 2007 to 2013 and Chief of the Oral and Maxillofacial Surgery service at Emory University Midtown Hospital. In 2013 he moved to his present position as Associate Professor and Chair of the Department of Oral and Maxillofacial Surgery at the Medical University of South Carolina within the James B. Edwards College of Dental Medicine. Dr. Steed is a consultant for the Committee on Dental Accreditation and a Board Examiner for the American Board of Oral and Maxillofacial Surgery (ABOMS). He was recently named as Co-Chair for the Medicine and Anesthesia Section of ABOMS. Dr. Steed’s clinical and research interests include microsurgical repair of peripheral trigeminal nerve injuries (such as the lingual, inferior alveolar, and infraorbital), virtual surgical planning/simulation, orthognathic and maxillofacial trauma surgery outcome measurements, and surgical curricular development and assessment. Dr. Steed has an active clinical practice, seeing patients three days per week, and operating two days per week. In addition to these clinical responsibilities, he directs the Department of Oral and Maxillofacial Surgery, is extensively involved in the training of the residents within that program, and continues his research in maxillofacial trauma.

**Salam Salman, DDS, MD**

Dr. Salman is an assistant professor in the Department of Oral and Maxillofacial Surgery at the University of Florida Health Science Center in Jacksonville, FL. Dr. Salman has been at UF-Jacksonville since 2015. After attending dental school, he completed medical school as well as his residency in Oral and Maxillofacial Surgery at the University of Kentucky Chandler Medical Center in Lexington, KY. Upon finishing his residency, he began his position as a full-time faculty member at UF-Jacksonville Department of Oral and Maxillofacial Surgery, where he serves as the Associate Residency Program Director. Dr. Salman’s practice currently includes management of facial trauma, orthognathic surgery, surgical treatment of obstructive sleep apnea, TMJ surgery and maxillofacial implant reconstruction.

**Ramon Ruiz, DMD, MD, APH Ped**

Dr. Ruiz joined the Department of Children’s Surgery at Arnold Palmer Hospital for Children. He is board-certified in oral and maxillofacial surgery and fellowship-trained in pediatric craniofacial surgery. Dr. Ruiz serves as medical director of Arnold Palmer Hospital Pediatric Craniofacial and Oral Surgery and the Craniofacial Disorders Program. Dr. Ruiz maintains a full-scope surgical practice in maxillofacial and craniofacial surgery with an emphasis in reconstructive surgery of the facial skeleton, corrective jaw (orthognathic) surgery, repair of the cleft lip and palate, and management of patients with complex craniofacial conditions. He has dedicated his professional life to the care of individuals with facial differences.

**Licensing Airways CE Requirements**: 6485-14.004 Additional Requirements. (6) All dentists who hold an active sedation permit of any level must complete four (4) hours of continuing education in airway management and four (4) hours of continuing education in medical emergencies, every four (4) years from the last date the dentist took the continuing education course. The four (4) hours in airway management must include two hours didactic training in providing dentistry on sedated patients with compromised airways and two hours must include hands-on training in airway management of sedated patients. The continuing education must be taken through a board approved continuing education provider. The continuing education required by this subsection will take effect on March 1, 2014. The continuing education required by this subsection may be included in the thirty (30) hours required by Section 466.0135, F.S.
