

Florida Society of Oral and Maxillofacial Surgeons

2018 Summer Meeting

Thursday, July 12

ACLS/BLS Recertification

Shawn Fix
Emergency Medical Consultants, Inc.

Friday, July 13

Advanced Airway Complications & Management for the OMS

OMS Office Emergencies - Simulation Course

Rick Ritt, BS, MA, EMT
Dental Simulation Specialists

Saturday, July 14

Functional Reconstruction of Complex Maxillofacial Defects VSP and 3 Dimensional Models in Oncologic Surgery and Surgical Training

Kevin Arce, DMD, MD
Consultant and Residency Program Director
Division of Oral and Maxillofacial Surgery
Mayo Clinic
Rochester, MN

Sunday, July 15

Patient Safety and Risk Management for the Oral and Maxillofacial Surgeon

Jeffrey D. Stone, DMD, MD
Board Certified Oral and Maxillofacial Surgeon
University of Kansas
Lowell, Massachusetts

Julie Goldberg, DDS
Dental Education Coordinator at OMSNIC and Fortress
University of Illinois
Ft. Lauderdale, FL

General Information

OMNI Hotels & Resorts Amelia Island

39 Beach Lagoon Rd.
Amelia Island, FL 32034

RESORT OVERVIEW

Omni Hotels & Resorts exists to give guests an authentic feel for the local flavor in leading business gateways and leisure destinations across North America. From exceptional golf and spa retreats to dynamic business settings, each Omni property blends seamlessly into the local culture while featuring four-diamond services, signature restaurants, WiFi connectivity and unique wellness options. At Omni, we dedicate ourselves to leaving a lasting impression with every guest through award-winning, personalized service.

HOTEL ACCOMMODATIONS

The oceanfront Omni Amelia Island Plantation Resort offers the epitome of resort accommodations carefully designed with your comfort in mind. With 404 oceanfront hotel rooms, our resort complements everything that is Amelia Island, Florida. All private balconies and patios face the ocean and are a delightful place to welcome an energizing sunrise during breakfast or sip an evening cocktail while enjoying the view. When making hotel reservations in our room block, please **book your room online, go to the web site:**

<https://www.omnihotels.com/hotels/amelia-island-plantation/meetings/fsoms-2018-summer-meeting>

OR

call **1-888-261-6161** and refer to the Florida Society of Oral and Maxillofacial Surgeons Summer Meeting to receive the group rate of \$269 for a regular room. The rate for Premium is \$289.00; One bedroom Oceanfront Villa \$309.00; Two bedroom Oceanfront Villa \$409.00; Three bedroom Oceanfront Villa \$469.00 **per night**. The room block will be released **Wednesday, June 13, 2018**.

CONFERENCE REGISTRATION

To register for the FSOMS Summer Meeting, please complete your registration online, including credit card payment as soon as possible. Online registration is available at: <https://www.123signup.com/register?id=hbzyt>

The registration includes all scientific sessions, full breakfast (Saturday & Sunday), and the Friday night reception for you and your spouse/guest.

Conference Registration Fees: Member, \$450; Non member, \$550; Retired Member, \$350; Guests and Spouses, no charge.

ABOUT the Airways and Emergency Courses

1) ACLS/BCLS 2018 Update: Member, \$200; Non member, \$250; Staff, \$150;

2) ACLS (only): Member, \$150; Non member, \$200; Staff, \$100 Once you register for the ACLS/BCLS course a 2018 text book will be mailed to you. You must complete the online pretest in the and bring in your results in order to take the course offered.

3) Advanced Airway Complications & Management for the OMS and OMS Office Emergencies – Simulation Course (both courses): Member, \$650; Non member, \$750; Staff, \$650

4) Advanced Airway Complications & Management for the OMS (only): Member, \$400; Non member, \$500; Staff, \$400.

5) OMS Office Emergencies - Simulation Course (only): Member, \$400; Non member, \$500; Staff, \$400

Licensing Airways CE Requirements

64B5-14.004 Additional Requirements:

(6) All dentists who hold an active sedation permit of an level must complete four (4) hours of continuing education in airway management and four (4) hours of continuing education in medical emergencies, every four (4) years from the last date the dentist took the continuing education course. The four (4) hours in airway management must include two hours didactic training in providing dentistry on sedated patients with compromised airways and two hours must include hands-on training in airway management of sedated patients. The continuing education must be taken through a board approved continuing education provider. The continuing education required by this subsection will take effect on March 1, 2014. The continuing education required by this subsection may be included in the thirty (30) hours required by Section 466.0135, F.S.

CONTINUING EDUCATION

This conference has been approved for 4 hours for the Airways course provided by Dental Simulation Specialists and 4 hours ACLS and 1 hour for BCLS course, which will be provided by Emergency Medical Consultants, Inc. FSOMS will provide a certificate showing **8 hours** for our Scientific Program.

AIRPORTS

Jacksonville International Airport is located 30 minutes from the resort and serviced by all major airlines.

GROUND TRANSPORTATION and PARKING

Please contact the concierge desk at 1-888-444-6664 to inquire about transportation services and fees. Valet parking \$25 plus tax, per night; or Self parking \$10 plus tax, per night.

CONFERENCE ATTIRE

Resort casual is acceptable throughout the weekend.

2018 FSOMS Summer Schedule

Thursday, July 12

12:30 – 1:00pm

ACLS/BLS Registration

1:00pm – 5:30pm

ACLS Recertification Course

5:30pm – 6:30pm

BLS Recertification Course

Friday, July 13

7:00am – 8:00am

Breakfast & Registration for Airways Courses

8:00am – 10:00am

Advanced Airway Complications & Management for the OMS

10:00am – 10:15am

Break with Exhibitors

10:15am – 12:15pm

Airway Complications & Management for the OMS Continues

12:15pm – 1:00pm

Lunch for Participants in Airways courses only

1:00pm – 3:00pm

OMS Office Emergencies - Simulation Course

3:00pm – 3:15pm

Break with Exhibitors

3:15pm – 5:15pm

OMS Office Emergencies - Simulation Course Continues

1:00pm – 6:00pm

Conference Registration

6:30pm – 7:30pm

Welcome Reception

Saturday, July 14

7:00am – 8:00am

Breakfast with Exhibitors & Registration

8:00am – 10:00am

Functional Reconstruction of Complex Maxillofacial Defects

VSP and 3 Dimensional Models in Oncologic Surgery and Surgical Training

Kevin Arce, DMD, MD

Julie Goldberg, DDS

10:00am – 10:30am

Break with Exhibitors

10:30am – 12:30pm

Sessions Continue

12:30pm

Adjourn

About Our Program and Speakers

Shaun Fix, Emergency Medical Consultants

Shaun Fix has been practicing and teaching in the hospital and pre hospital field since 1983. He is the president of Emergency Medical Consultants, Inc and a company officer in charge of EMS for Boca Raton Fire Rescue Services in the Palm Beach area of South Florida. This team has been presenting Management of Office Emergencies for Dental Professionals since the 90's and Along with Dental Specialty ACLS courses, helped present the original curriculum for the

Dental Airway Course with members of the FSOMS board. Shaun has presented programs at State, National and International Conferences and has appeared on FETN, Pulse, 24-7 EMS, Medic Monthly, and Emergency Medical Update Videos.

ACLS/BCLS Update 2018

ACLS Update For The Dental Professional- Emergency Medical Consultants takes the 2018 ACLS guidelines and makes them relevant to the OMS office. The AHA now mandates completion of a pretest, which will be sent to participants, prior to the course. This program is designed to review the latest guidelines for managing cardiac emergencies in both perfusing and cardiac arrested patients. Following the update, participants will progress through cases involving Airway compromise, Acute Coronary Syndromes, Stroke, and Cardiac Arrest; all as they may relate to the Oral Surgeon. The additional CPR Certification Skills, (Child and Infant CPR and Choking) can be added to the end of the ACLS course for those who require BLS CPR certification as well. ACLS Participants must have the 2018 Text (available when registering) and complete the pre-test (supplied in hard copy or via email) prior to entering the course.

Rick Ritt, BS, MA, EMT-PARAMEDIC Dental Simulation Specialist

As a paramedic for over 35 years, Rick has a vast foundation of acute critical care experience. Simultaneously, Rick has an extensive training history, for 20 years he directed the second largest American Heart Association CTC in the country. He is personally responsible for training over 150,000 students in BLS, ACLS, and PALS. His AHA Instructor history includes Affiliate Faculty Status in BLS, ACLS, PALS. In 2014,

he established Dental Simulation Specialists Inc. to serve the growing need to increase awareness, patient safety and outcomes in the dental office.

Advanced Airway Complications & Management for the OMS

There is obvious increased risk when providing sedation and general anesthesia in the dental office setting. A cautious and careful pre and post op assessment, in conjunction with continuous comprehensive intraoperative monitoring can thwart off many unwarranted complications. The Advanced Airway Emergency Management of the Sedated Patient Course will prepare and provide the OMS to successfully intervene and manage these adverse situations should they potentially occur.

OMS Office Emergencies – Simulation Course

This unique and challenging program provides the OMS with a hands on clinical simulation experience that addresses the proper assessment and management of a variety of patient emergencies associated with sedation. This course will re-enact emergency simulations as a method to improve patient safety, team performance, and outcomes. You will be presented with a variety of case studies in which you will be engaged in real time critical decisions and therapies for those patients. Lastly, participants will be given the opportunity to participate and demonstrate the appropriate patient and team management on a host of high fidelity simulators and task trainers.

Kevin Arce, DMD, MD

Dr. Arce is originally from San Juan, Puerto Rico where he attended the University of Puerto Rico for his undergraduate studies. He obtained his dental degree from Temple University School of Dentistry and a certificate in oral and maxillofacial surgery and medical degree from Mayo Clinic School of Graduate Medical Education and Mayo Medical School respectively. Following his residency, Dr. Arce completed a fellowship in Head and Neck Surgery at Legacy Emanuel Hospital, a Master

of Clinical Research at Oregon Health & Science University and a Master of Academic Medicine from the University of Southern California, Keck School of Medicine. Dr. Arce practices oral and maxillofacial surgery with an emphasis on head and neck pathology and reconstruction. His research interests include functional and clinical outcomes in maxillofacial oncologic and reconstructive surgery, factors that influence surgical education and the use of virtual planning and 3D anatomical models on education and patient care.

Functional Reconstruction of Complex Maxillofacial Defects VSP and 3 Dimensional Models in Oncologic Surgery and Surgical Training

- Explore reconstruction techniques for complex maxillofacial defects
- Discuss cross-disciplinary care and prosthodontic considerations in maxillofacial reconstruction
- Identify pitfalls and complications associated with maxillofacial reconstruction
- Describe point of care virtual planning and 3D printing and its influence on clinical decision making and surgical training

Julie Goldberg, DDS

Dr. Goldberg is the Dental Education Coordinator at OMSNIC and Fortress. Julie received her dental degree from the University of Illinois and is a licensed dentist in both Illinois and Florida. She is a Chicago area native who has been in private practice in Illinois as well as in the Ft. Lauderdale, FL area, and currently maintains membership with the ADA as well as the Chicago Dental Society.

Jeffrey D. Stone, DMD, MD

Dr. Stone is a Board Certified Oral and Maxillofacial Surgeon, with practices in Lowell, MA, and Nashua, NH. He received his B.A. from the University of Kansas, and his D.M.D. and M.D. degrees from Harvard. His Oral and Maxillofacial Surgery and General Surgery training were completed at the MA General Hospital. He has been President of the MA Society of Oral and Maxillofacial Surgeons, president of his hospital medical staff and an American Board of Oral and Maxillofacial Surgery examiner and section chairman.

Patient Safety and Risk Management for the Oral and Maxillofacial Surgeon

This course aims to provide attendees with the enhanced tools necessary to promote patient safety and improve outcomes while reducing liability and exposure to risks. OMSNIC's team of speakers will utilize a collaborative learning environment to illustrate contemporary day-to-day risks in the OMS practice through a detailed analysis of claim examples. The highlighted topics include nerve injury, communication, infection & failure to diagnose, medication management, documentation, emergency preparedness and informed consent.

Objectives:

- Identify aspects of communication and documentation with potentially challenging implications to the OMS practice
- Implement new strategies to help prevent failure to diagnose allegations and improve management of infection cases
- Establish best practices to help ensure preparation for and management of in-office emergencies
- Describe and manage informed consent challenges
- Recognize the potential effect technology and applied risk management can have on mitigating and managing nerve injury
